T: (661) 425-1572

OBJECTIVE

Dedicated professional with a Master's in Library and Information Science, offering a unique perspective on technology's role in connecting people with information. Skilled in data analysis, system design, and user experience, with a passion for learning new tools and crafting practical solutions. Eager to contribute technical expertise and collaborative problem-solving to a forward-thinking team.

RELEVANT EXPERIENCE

Outlier.ai (May 2024 - Present)

- Trains Artificial Intelligence (AI) based on prompts and images
- Fact checks AI statements and adjusts for clarity
- Reviews the work of others; participates in constructive critique and grading of personal projects and assignments

Little Free Library Intern (Fall 2024)

- Collaborated with classmates and colleagues to produce desirable outcomes in a library setting
- Participated in weekly meetings to provide status reports and brainstorm innovative ideas for community engagement
- Produced budgetary documentation for grant proposals and studied interactions between stakeholders
- Communicated with C-Level management in a nonprofit environment to produce measurable and desirable results
- Tracked and analyzed statistical data via Qualtrics and other proprietary software

User Experience and Virtual Reality Intern (Fall 2023)

- Designed and tested browser-based virtual reality environments in Mozilla Hubs
- Completed storyboarding and brainstorming activities through Miro with professors and peer mentors
- Interviewed San José State University students and alumni who participated in the PhD Gateway Program and developed a virtual space to showcase their achievements and garner interest in prospective candidates

San Francisco Public Library Jail and Re-Entry Services Intern (Fall 2023)

- Studied research topics for the incarcerated population of San Francisco as an enthusiastic volunteer
- Cross-checked the credibility, accuracy, and source quality of each answer provided to information seekers
- Engaged with program mentors and managers and accepted constructive feedback on a per-project basis
- Reflected on personal learning experiences of internship duration and meditated on ethical principles of information-seeking
